Professional Experience

Senior QA Test Lead | Quality Assurance Tester | Scrum Master

GeekSI | Tallahassee, FL

March 2019 to June 2025

Senior contractor providing requirements analysis, UAT leadership, and quality assurance across multiple mission-critical VA healthcare projects. Subject matter expert for complex clinical modules, facilitating knowledge transfer and driving process standardization across distributed teams.

- Became the go-to SME for the Traumatic Brain Injury module, running knowledge transfer sessions that enabled cross-functional teams to navigate complex healthcare domain requirements.
- Championed the transition from Waterfall to Agile, coaching distributed teams through adoption and gaining leadership buy-in, improving delivery predictability across projects.
- Drove standardization of testing practices and documentation across multiple VA projects, building consensus among distributed teams and reducing onboarding time for new analysts.
- Advocated for accessibility as a core quality metric, leading 508 compliance initiatives and educating team members on inclusive design requirements.
- Collaborated with automation engineers to validate Cucumber/Selenium scripts, catching requirement-execution gaps before automated tests went into rotation.
- Built requirements traceability documentation that mapped every business need to test coverage across web, mainframe, and mobile platforms.

QA Test Lead | QA Analyst

YouScience | Austin, TX

July 2017 to June 2018

As the sole QA resource, built comprehensive quality processes and test infrastructure for the company's flagship education assessment platform, earning credibility with development and product teams.

- Built credibility with development and product teams by demonstrating the value of structured requirements validation, ultimately integrating QA as a respected part of the SDLC.
- Created end-to-end test documentation spanning procedures, requirements traceability, and verification standards.
- Improved developer-QA communication by introducing standardized user story and acceptance criteria templates, reducing ambiguity and accelerating delivery.
- Created and maintained product documentation to support new feature releases and ensure consistent understanding of requirements.
- Owned end-to-end validation for the flagship web application, gating every release across browsers and mobile platforms.

Lead QA Tester | Quality Assurance Tester

DocbookMD | Austin, TX
July 2012 to April 2013

Founded and scaled the QA function for a HIPAA-compliant healthcare messaging app, ensuring regulatory requirements were met while building the team and processes where none existed.

- Analyzed and documented HIPAA compliance requirements, ensuring application met strict regulatory standards for secure transmission of patient health information.
- Grew the QA department from a solo operation to a full team, hiring, onboarding, and mentoring new analysts while codifying repeatable quality processes.
- Developed initial test strategy and comprehensive documentation to ensure software met business and regulatory requirements before release.
- Executed functional, regression, and HIPAA compliance validation across all supported mobile devices, ensuring every release met regulatory standards before deployment.

QA Test Lead | QA Tester

Luna Data Solutions | Austin, TX
August 2011 to April 2012

Contracted as QA Tester and promoted to Test Lead for Heatwave Interactive, authoring test documentation and leading a team across multiple game titles.

- Authored comprehensive test plans and documentation for smoke and regression testing cycles, improving coverage and consistency.
- Led and mentored a team of testers, raising the bar on documentation quality and execution consistency.
- Executed daily validation of game builds for core functionality, gameplay mechanics, and UI integrity.
- Promoted to Test Lead based on documentation quality and team leadership skills.
