PROFESSIONAL EXPERIENCE

Senior QA Test Lead | Quality Assurance Tester | Scrum Master

GeekSI | Tallahassee, FL

March 2019 to June 2025

Led QA, UAT, and requirements analysis across multiple VA healthcare projects, drove Agile process adoption, and served as SME for complex clinical modules.

- Became the go-to SME for the Traumatic Brain Injury module, running knowledge transfer sessions so cross-functional teams could navigate the clinical requirements.
- Drove the Waterfall-to-Agile transition, introducing code freeze and release-candidate practices that shifted teams from reactive firefighting to predictable delivery.
- Managed test cases, defects, requirements documentation, and project dashboards in JIRA and Confluence across 6+ years and multiple VA projects.
- Ran SOAP API testing on VA home loan .NET applications and REST API testing via Postman on Java healthcare modules, validating service queries, data contracts, and data integrity.
- Built and executed test strategies for VA clinical healthcare applications across .NET and Java, covering UAT, regression, integration, smoke, sanity, end-to-end, and 508 compliance.
- Led 508 compliance initiatives and performed hands-on JAWS and NVDA screen-reader validation on VA clinical interfaces, catching accessibility issues visual inspection misses.
- Partnered with automation engineers to validate Cucumber and Selenium scripts, catching requirement-to-execution gaps before tests went into rotation.
- Built requirements traceability documentation mapping every business need to test coverage across web, mainframe, and mobile.

QA Test Lead | QA Analyst

YouScience | Austin, TX

July 2017 to June 2018

As sole QA, built quality processes and test infrastructure from zero for the flagship education assessment platform, earning trust with development and product teams.

- Introduced foundational quality practices, including version control discipline, release candidates, and structured validation, to a team shipping without formal QA process, integrating quality as a respected part of the SDLC.
- Created end-to-end test and product documentation covering procedures, requirements traceability, verification standards, and feature release notes.
- Standardized user story and acceptance criteria templates, reducing ambiguity between developers and QA and speeding up delivery.
- Owned end-to-end validation for the flagship web application, gating every release across browsers and mobile platforms.

Lead QA Tester | Quality Assurance Tester

DocbookMD | Austin, TX

July 2012 to April 2013

Founded the QA function for a HIPAA-compliant healthcare messaging app, establishing regulatory-grade quality processes and validation strategy from zero.

- Analyzed and documented HIPAA compliance requirements, ensuring the app met regulatory standards for secure transmission of patient health information.
- Built the initial test strategy and QA documentation from scratch, gating releases against both business and HIPAA compliance requirements.
- Ran functional, regression, and HIPAA compliance validation across all supported mobile devices, creatively simulating wifi outages to catch edge cases scripted testing misses.

QA Test Lead | QA Tester

Luna Data Solutions | Austin, TX

August 2011 to April 2012

Contracted as QA Tester at Heatwave Interactive and promoted to Test Lead, authoring test documentation and leading a team across multiple game titles.

- Authored test plans and documentation for smoke and regression cycles, improving coverage and consistency.
- Led and mentored a team of testers, raising the bar on documentation quality and execution consistency.
- Ran daily validation of game builds for core functionality, gameplay mechanics, and UI integrity.
